

## Hide Incoming Calls While in Zoom Meeting

If you do not wish to be disturbed with incoming calls while you're in a meeting you can choose to hide incoming calls.

1. Click the phone tab in the left side navigation.

Commented [TD1]:

2. Check the Hide incoming calls while in a meeting checkbox.

Note: This setting only applies to the Zoom desktop client.

You can see missed calls in the view Call History section – We will discuss this later.
