

Move Call to Zoom Meeting

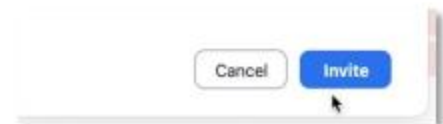

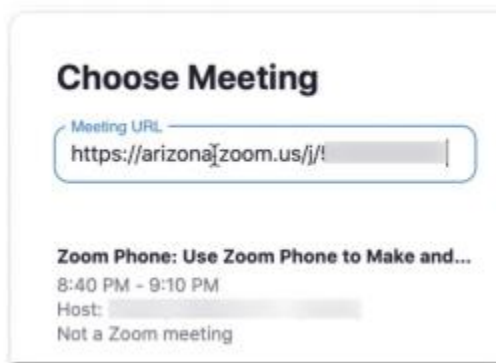

While in a call, you can also move the phone call to a Zoom meeting using the Meet button. This action moves everyone on the phone call into the same Zoom meeting.

1. To move one individual into a Zoom meeting, click More and then click Invite to Meeting.

2. Enter the meeting URL and click Invite.

The screen updates to show you the invitation was sent. Followed by an update showing that the participant has joined the meeting and your call with the participant has ended
